

Data Exports

Posted by ceuUne - 08 Feb 2013 21:24

English:

I like the look and feel, i like how it presents the stats but i have problems with some functions, especialy in Export Data.

When i click the button data it does not work, just show a white page, with no errors codes, neither advices or message.

Español

Me gusta mucho como se ve, y sobre todo me gusta la forma y tipos de reportes que maneja, pero tengo algunos problemas con algunas funciones, especialmente en Exportar datos.

Cuando hago clic en el botón la página se vuelve blanca sin mostrar ningun error o mensaje.

Quedo atento
