

## Error: The SA keys server is temporarily unavailable

Posted by latitudweb - 21 Aug 2013 14:06

---

[SALES ANALYTICS for MAGENTO](#) uses an external keys server that prevents unauthorized access to your sales data.

With some specific situations, while dealing with huge numbers of simultaneous request, the external keys server might become temporarily unavailable.

If you are experiencing this issue, please wait a few minutes and try again.
