

ORDER CATEGORY

Posted by IGFRAN30 - 26 May 2012 15:33

Is it possible to list the products that exist in a order sorted by category?

Hi igfran30,

Do you mean in a single order? Well, that's not the point for the report tool. It is designed to process and perform calculations on all the reports in a given timeframe.

For all the reports on the given timeframe (days, weeks, months and years) you can get the sales reports arranged by product categories.

I hope this helps you.

Kind regards.
