

get white page with SOCIAL ANALYTICS 1.2.1 in some function

Posted by desbear - 18 May 2012 01:42

I use joomla2.5.4 and jomsocial2.6.1

when I click many of report type in the left menu bar.

I usually get blank page.

Any update for solve this problem?

Hi desbear,

Thank you for your feedback. We'll check that.

Could you be a little more specific? What reports raise that issue? If we know that, we'll quickly work it out.

Kind Regards.
