

Fatal error: Class 'WebAnalyticsConfig'

Posted by lsutton - 27 Jan 2011 15:00

When trying to export the graphic or even data I run into this error:

Fatal error: Class 'WebAnalyticsConfig' not found in

C:\somepath\htdocsadministratorcomponentscom_socialanalyticslibexportgraph.php on line 23

=====

Hi lsutton,

The export graph feature is still experimental, but you're right, there is an issue in this file.

Just edit the `htdocsadministratorcomponentscom_socialanalyticslibexportgraph.php` file. In line #23 replace **WebAnalyticsConfig** with **SocialAnalyticsConfig**.

Regards.
