_____

Hi Latitud Web,

I really like your extension and will be recommending it to our clients. I do however have a couple of questions:

1) Is the cost a one time cost or is it a monthly or annual subscription?

2) Any idea why clicking on product categories does not show the sales by category? Is there something I need to configure in Magento to make that happen?

3) I'm also getting a 404 page not found when I click on Configuration, any idea why?

Looking forward to your response.

Best,

Paul
