Graph isn't working out of the box

Posted by stiponline - 28 Nov 2016 10:32

I solved this temporary with help of other post:

replaced www.google.com/jsapi to www.google.com/jsapi in all layout files.

When is this fixed in next point release?

Using:

J3.4.6

VM 3.0.16

Analytics 4.0

==========
