(ERROR_300:31c58c5)
Posted by jason - 10 Aug 2014 12:06

_____

I've purchased and installed the extension. When asked to register domain, I tired inputing either username or order number but nothing works.

_____

Hello Jason,

I've sent you an email with your subscription keys and instructions to set them on your installation.

Please check your inbox and let us know whether the issue has been worked out.

Kind regards.
