

## Blank page in inventory menu

Hi all,

Very simple : I got a blank page when I click on &quot;Non-sold Products&quot; or &quot;By products&quot; under the inventory menu of the component.

It seems to be a memory leak problem cause I got this in the error log :

```
mod_fcgid: stderr: PHP Fatal error: Allowed memory size of 134217728 bytes exhausted (tried to allocate 80 bytes)
```

Any help would be very appreciated.

Thanks!
