Hello there

Joomla 3.4.5

VM 3.0.10

When installing the framework and the analytics we get the following error (when selecting the Analytics from the backend)

1064 You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'AND query_id= AND source="V",' at line 1
SQL=SELECT query_param, query_value FROM `pfupr\_sa\_report\_query\_params` WHERE report_id= AND query_id= AND source="V";

Could you please advise?

Thank you
