Magento Module Renewal

Posted by neal@prfulfilment.co.uk - 21 Mar 2016 11:42

Hi,

Im afraid I'm getting no response from the Magento support forum so I've resorted to posting in here.

I have renewed the sales analytics module for magento but im unsure on how to setup/install/register the renewal in my magento site? The module is still displaying a license expired message...

Regards,

Neal
