

Still running ?

Posted by bogdanstorm - 10 May 2012 01:21

Hello,

I saw there is no activity in the last few weeks and I want to know if this website is still alive because I'm interested in Sales Analytics.

Thanks,

Hi B,

Sure, the site is up and running.

The reason why you see no much activity in the user forum is because the products are fully stable and very intuitive.

Anyway, if you have any question or suggestion to make, we'll gladly answer you.

Kind regards.

Hey,

Thanks for prompt reply. I sent you last week a translation for Romanian language. Can you please look for it and let me know. I would like to purchase the Sales Analytics.

Thanks and looking forward to your reply.

I'm sorry but we cannot find the Romanian language translation. Could you please re-send it to us? As soon as we'll get it, we'll enable your discount coupon.

Sorry for the inconvenience.
