Hello,

I live in Holland and here we have 2 Tax percentage on our products (6% and 21%).

In all the reports i see "Order tax" totalammount but not specyfied in %.

Is it posible to make a report like:

Date, Invoicenummer, Gross income, Netto Income, Tax 1 (6%), Tax2(21%), .....

If so i can use this tool for my Tax administration.

Grz,

Raymond
